***Last day to apply: 4/15/2010***

Does the mere thought of you having to care for the high risk OB patient give you morning sickness? Obstetrics is a highly specialize area of medicine that is very unique in its delivery of care to both the mother and fetus. For those health care professionals that do not have an Obstetric background the care of the pregnant patient can be confusing and at times, downright terrifying! This Obstetrics seminar will focus on the physiologic changes that occur during pregnancy, the assessment of the mom and fetus and management of high-risk obstetric conditions until the patient can be stabilized and transported to a higher level of care.

**Provider: Peds R Us, approved by the California Board of Registered Nursing, Provider # 2322 for 6 contact hours.**
